TECHNOLOGY

## THE TIME IS RIGHT TO CONSIDER RFID...

The ability to offer the latest in PJM RFID technology is a huge game-changer for ICON and a benefit to our valued casino clients. ICON has partnered with the top suppliers of RFID technologies in the casino industries allowing for a relatively cost-effective and top tier RFID gaming chip solution.

### the main benefits:

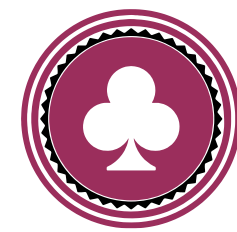

- Securely manufactured in the USA trusted secure manufacturing facility in the heartland of the US.
- PJM II Technologies offer the quickest and highest stack reads in the industry.
- Streamline your player tracking and efficiencies for player rewards.
- Each chip is individually programmed and trackable in the system for easy validation at the cage.
- Cage accounting made easier.
- Add a nearly unbeatable level of security to the world's most secure gaming chips.
